

★ A state of graduation ceremony ★

6066 graduates left to the new life

On Saturday, March 22, the graduation ceremony was held in Memorial Hall on campus. The hall was filled with over 6000 graduating students.

Graduating students received messages from Yoshikazu Noda who is Higashi-Osaka city's mayor and Seko Hiroshige, Kindai's former chancellor. The graduation ceremony continued for about one hour. Graduating students stayed in front of the hall for a long time talking with their friends. They could not part from them. Many students

said, "Four years passed quickly. I don't feel like I'm really graduating". They also said, "I thank my parents for bringing me up and my senior seminar." A lot of students took pictures with their friends or their parents in front of the ceremony signboard. Students send messages to younger students that they should do their best and to never have regrets. On this day, students left Kinki University and went toward a new life. They passed through the West gate with a smile.

Interview with the President

President gave his message to Kinki University students

On February 4, 2014, the English Press Society, the Press Society, and the Broadcasting Station had a chance to interview Kinki University's President Hitoshi Shiozaki, 69. In this interview, President told us about academic exchange with foreign universities. He also talked about "learning for the real world" and "nurturing intellectual and emotional intelligence" the Kinki University founding principle.

Kinki University is very active in cultural exchange with foreign universities. Kinki University made a formal agreement for academic exchange with University of Pristina in Republic of Kosovo. Kinki University now has 41 partner schools in 15

countries. President said, "We'll make more partner schools in the future."

Kinki University is working on four projects to support the recovery from the Great East Japan Earthquake. These projects cover 36 themes of academic areas in which 13 faculties of Kinki University proposed to work on in collaboration for the recovery. President said, "All faculties cooperate for one purpose and the good of society. I think it is "learning for the real world"."

Lastly, President gave his message about "nurturing intellectual and emotional intelligence" to Kinki University students. "What you say shows your character and education. Your words can hurt and save others' feelings. Even if you use severe words,

(Photo by S. Yoshida)

the words you use with love can save others. It is important to think about that your words have an influence on others' feelings. Please try to use kind expressions and words."

TWO GRADE STUDENTS INTRODUCE TO NEW STUDENTS ABOUT FACILITIES OF THE COLLEGE.

★ POINT

The Central Library ... ①

There are not only Japanese magazines but also foreign magazines and movies. Also, this library has many textbooks regarding various qualifications and licenses. And we can read newspapers for free every day, so it will be a great chance to study about the social situation.

Kinki University Language Institute... ②

We can attend free language classes or see some foreign movies and read a lot of graded readers. This place is the best place for you to improve your language ability.

E-cube ... ③

There are English manga and games, and an open space to play basketball. E-cube cafe sells hamburgers, potatoes, and pizza, so we can enjoy eating authentic American food.

Japanese style's tone sounds

Traditional Japanese musical instrument makes various sounds

December 14, at 1:00 p.m., Japanese Music Club held the concert "Yukutoshinone" in a Japanese room in the Club Center. Koto and vertical bamboo flute, other traditional Japanese musical instruments were played in this concert.

Music of various melodies was played in this concert. "Umekaorujokamachi" had a characteristic tone of vertical bamboo flute. In "Rudolph the Red-nosed Reindeer", Koto

and "jushichigen" created various tones. Other famous Christmas children's songs were also played in this concert.

Students and senior citizens, people of various age groups attended this concert. They listened to music with concentration, and they grandly clapped their hands whenever this club's performance ended. The club explained about traditional Japanese musical instruments between music pieces. This attempt was done in order to familiarize the audience with traditional Japanese musical instruments.

Chairperson of this club and sophomore, Kouda Hideki explained, "Japanese Music is not formal at all. It is very friendly. Children's Christmas songs were our confident work."

(Photo by K. Takami)

Besides, he said, "This club is friendly. Because the club members' bond is strong, we can do achieve a wonderful performance. I hope that Kinki University students will enjoy our performance."

★ A Table manner class ★

It can learn manner with eating French foods

On Sunday, December, 15, 2014, a table manner class was held in **Sheraton Miyako Hotel**. Mr. Noda, the teacher of this lesson began an explanation about table manners when all guests assembled.

A table manner originates in France and means eating without annoying other people. We must be very careful when we

have dinner with others. For example, we must keep entering from left side when we sit on our seats, and we must not make sounds when we drink.

The menu was soup of pumpkin, **poeler of bream** and chocolate cake with a sauce of **green soybeans**. Mr. Noda said, "It is the correct way to cut from left part when we use

knives and to adapt our pace of eating to others'. Visitors had them with practice these ways. After all dishes, they tried French **etiquette** of crushing their napkins.

Finally, Mr. Noda said, "I hope you have learned methods as more as possible today." Eating French foods while studying them would be a valuable experience for customers

★About a conpuncture and moribustion★

Safty and relief cure

Acupuncture and moxibustion are traditional medical treatments in East Asia. The history is very old, that dates back to the Ante Christum. In Japan, these treatments have taken over other ways of treating bad body conditions for a long time.

Acupuncture and moxibustion are curing sick people by stimulating acupuncture point called “keiketsu.” The effect is very wide. For example, it relieves the stiffness in shoulders and improves the circulation of the blood. Patients need to have a medical examination several times and for a long period of time at acupuncture and moxibustion. However, it has no secondary effect and causes no pain.

(Photo by T. Toshiki)

A practitioner of acupuncture and moxibustion, Mr. Nakata has a motto at his work. That is “always studying” and “make a trust relationship with a patient.” He said, “the latter is particularly important in order to know exact health conditions and treat the problem.”

moxibustion are different depending on the person. So only the person who experienced it can tell the true effect. If you feel a sense of incongruity or pain, how about going to an acupuncture and moxibustion clinic, and it may cure the trouble of your body.

The sun

New spring is coming soon. We feel the warmth of the sun after a cold winter.

The sun affects life work and nature. Beside human beings have depended he blessings of the sun for a long time. We use the sun to grow crops and saw the time with a sundial. The sunlight has been used for solar power generation recently. The sun is utilized for various purposes.

However, the sun doesn’t give us only merits. If we watch the sun directly, sunlight damages our eyes. Also, if we expose our skin under the sun for a long time, we get sunburned. The serious sunburn can cause skin cancer. In this way, human beings suffer from negative features of the sun.

Human beings invented sunscreen and sunglasses to reduce the problem.

In the future, we should find more effective ways to protect our skin from the sun and to use the sunshine.
