Yasukochi's English Lecture

by T. Sakaguchi

On October 13th, Wellness held a lecture with Mr. Yasukochi's, an English teacher from Toshin High School, in November Hall's Small Hall.

Mr. Yasukochi first asked questions to participants in English related to Kindai in order to relax them and lower their tension. After making a happy mood, he started an orthodox lecture. He talked about mainly two themes.

One was the merit of going abroad. For example, we can maintain friendships forever nowadays by using modern communication tools. In addition, the experience of going to foreign countries gives us a hint about our future career possibilities.

The other topic was techniques to improve your English skills. He said "the most important thing is to read English aloud". He emphasized "although you can't understand at first, someday you can speak clear English".

Mr. Yasukochi's lecture ended in one hour, but from start to finish, it was **full of meat**.

every Wednesday and Thursday, and they play in a **riverbed** from 9 a.m. to 3 p.m. every Saturday. They aim to be victorious. They achieve many playing skills, including long passes and "**P vs P**," or person vs person.

Second year student, Tsukasa Hayashino, the team captain, said, "Throwing speed and catch timing decides a game's victory or defeat because flight times of the disk are long. Flying disk may be a minor sport, but if you think it is easy why don't you try doing it? Let's play!"

Dear Tori-chan,

Hi, everyone. How are you? I'm Tori-chan. I can answer your consultation in the corner.

I want to go on a carefree trip with my friend because I have winter break soon. Do you know any good?

Um... How about you go to look at the starry sky? In the Kinki region, Yamazoe Village, Yamabe County, Nara Prefecture and Tsuruhime Park in Yoshino County, Nara Prefecture are famous for their starry night skies.

Astronomical observation is fun but I don't know much about it. Please tell me about some astronomical objects.

If you try to find a constellation, it is difficult because of many stars. First, you find the brightest star to know the general direction and angle to look at. Then you can find Orion, Gemini and so on easily. Also, there is less rainfall on the pacific coast in winter, so you can see especially beautiful stars. I think it will be fun to look back on your memories thoughtfully while looking at the stars.
