授業到達目標の達成度	The classes went well and the majority of the students demonstrated overall progress.						
反省点	The speed of the lessons was very good but I would have liked to expand each lesson further but couldn't due to time constraints.						
来年度の計画	This will depend on the students taking the class but the textbook Smart Choice 2 together with the workbook is both interesting and level appropriate.						
授業評価アンケートに対するコメント	Most of the comments were very positive. According to the comments in the questionnaires most of the students did the set homework but little or no review or extension...they need to take more responsibility for their studies.
