

# Application of Electric Field Technologies into Environmental Improvement

(Professor Koji KAKUTANI, kakutani@kindai.ac.jp)

## Research Area

1. Fundamental research of static electric field
2. Principles and applications of electric field technologies
3. Practical utilization and market research

Electric field screen

Practical application

## Recent Activities

- A Simple Electrostatic Device for Eliminating Tobacco Sidestream Smoke to Prevent Passive Smoking. 2018. Instruments. etc.  
See also : <http://www.electric-field-screen.org/schedule.html>
- Patent US8,105,418B2 : Fungi preventing method, flying organism removing apparatus and plant protecting apparatus by adsorption of conidia using dielectric polarization etc. See also : <http://www.electric-field-screen.org/report.html>
