

Creation of Knowledge through Cooperation between Mathematics and Physics

(Prof. Yasushi KONDO, ykondo@kindai.ac.jp)

Research Area

Goal:

1. Research to be the foundation of practical science
2. Collaboration among researchers in mathematics and physics
3. Make a place to discuss among senior and junior researchers

Can we cook a delicious hot pot ?

Recent Activities

- Talks on various topics once a month
- Paper with a speaker: Nakahara, Bando, and Tanaka, “Solution of traveling salesman problem by adiabatic quantum computation”, Science and Technology No. 29 (2017) pp. 1 ~ 9.
